

Dear God,

God thank you so much for giving me life to live in my family. You gave me life so I can come to this world and look at the beautiful world you made. I am so happy that I was born into this family. My mother is very busy but she always makes breakfast for me and my sister. On Sundays, I have training sessions in the morning. She will wake up early and drive me to the training centre. My father is busy too. He goes to work early and comes back home late, I have less time to stay with him. Yet, he will find some time to take with me and want to know the things in my daily time. Also, my sister always fights with me, but I know she cares about me. I am also very happy that I have many good friends. Thank you so much for granting me my family.

Best wishes

Dear God,

Thank you for giving me many teachers who are very kind and caring. Thank you for helping me make friends. I can chat with my friends daily to share my sadness and happiness. Thank you for creating the Earth too.

I also want to thank you for hearing my prayers when I want to talk with you. Talking with you helps calm me and brings me joy. Thank you for teaching me how to be grateful with everything such as the food that I have every day. Because not everyone can have food to eat. Some countries are very poor. Thank you for letting me learn to "love each other as you love yourself". Help me learn more how to love myself and so I could love others even more. God help me

when I am facing challenges, while also granting that I may reflect what I've learnt in the bible that are filled with your teachings.

Thank you for helping me to be a friend to all who need me. You showed me how to share love to others and let me see you in others. Thank you, God, for giving strength to all those who work to bring peace to the world. Thank you for teaching us how to live with love. Thank you for giving me parents who give me a home, food, clothes, and education and made so many sacrifices for me. Thank you for this school in which I am studying. Thank you for all the beautiful things you have created all around me.

Thank you! Thank you! Thank you!

Best wishes,

Dear God,

Thank you for giving me a chance to study at Our Lady's College. When I was secondary 1, I was very scared. Because I saw many new faces in the classroom. At first, I didn't want to go to school every day when I woke up, but after a few months, I tried to make friends in class, and it worked! I started to chat with them, and after a week, we had already become friends. We go to school together, eat lunch together, and go back home together. Sometimes, we even play together on Saturdays or Sundays.

Secondly, my scores were very low when I was in Secondary 2. When I arrived home, I always played with my phone and never studied (not even during the term test). But I saw the scores on the test paper, and I was shocked. So after this term test, I worked hard a lot, and finally, my exam scores increased a lot!

I hope that I will continue to be blessed by you, God, but also to be guided by you so that I could be a better me!

Love,

Chloe Yeung 3C (33)

Dear God,

Last month, my grandmother was sent to the hospital suddenly because of an accident that caused her to have a heart problem. She is 85 years old now. The doctor said that it was difficult for her to recover at that time. This made my family and me very worried. We worried that this accident would make my grandmother leave this beautiful world.

I then started praying to you, asking you to help me. While I was praying to you, I felt at peace.

After a few days, the doctor told us that my grandmother have overcome the dangerous period. I knew it must be you who helped us! You are great, hope you can keep helping me and my family. Thank you very much!

Yours Truly,

Dear Lord,

Thank you for giving me a lovely family and friends, and when I was having a hard time, you always find someone to stay with me and help me through this difficult time.

Although sometimes I think you have left me, in the end you will always help me at the perfect timing. Thank you for teaching me to be grateful and patient.

Also, thank you for giving me enough food to eat every day. I know some countries do not have enough food and supply. Therefore, I will try my best to help them, such as donating food, clothes and money to charity.

Moreover, thank you for giving me the courage to deal with my problems and fear. I don't say thank you enough, but I am thankful for everything I have. Thanks.

Dear God,

Thank you for giving me the best friends to help me solve my problems. When I feel sad, they will comfort me. When I feel sick, they will take care of me. Because of them, I do not feel lonely. We like to talk every day and play games together. When I face difficulties, they will help to solve the problems with me. Therefore, I thank you for giving me my friends. It makes my life more happy and less lonely because of them.

Also, I thank you for giving me so many opportunities. Because of these opportunities, I can try my best to do everything. These opportunities led me to be more brave, and it allowed me to be brave to show off myself. The opportunities have also let me grow and do more good things for the world.

To sum up, I thank you God for giving me all the things I have, not only the friends and opportunities, but also the people who have helped me. I think they will help me because of you. Lastly, thank you for making this wonderful world for us.

Yours Truly,

Dear God,

Thank you for giving me my family. When I was sad, they would comfort me and support me. Sometimes, I get into some disputes with my friend. They give me suggestions on how to solve the problems.

Dear God,

Thanks for being here with me, whether I'm down or happy. I believe in fate, and I believe you are the one who is making decisions in my life. These two months have been challenging. I've

lost my best friend, my term test, and some other things. But also, meeting some new people and doing well in my term test, made me happy.

Sometimes, I don't quite understand how to overcome the challenges as they seem so difficult and depressing. But then slowly I realise that I have gone through something similar before. And so I could overcome that challenge.

Even though I sometimes think it is the end of something, it is a fresh start. God, you're trying to strengthen and prepare me for other things in life. I wonder quite often what next adventure you have in place for me.

But thank you for giving me what I have. My family, my friend, my happiness ... they matter a lot to me and always bring a smile to my face. Are they angels? Everything that you have done for me is incredible. It helps me build my character and strengthens me. Thank you for the little things, the good wealth, and even the flowers along the streets. It lightens my day.

Thank you, God, for doing these things.

Yours,

Dear God,

I am writing this letter for to thank you thank you for letting me be born in this beautiful world. Thank you for letting me have a slim and tall body, thank you for letting me have a good teacher and a lot of good friends. Thank you for letting me have a pet rabbit, I always want to have a pet. But I want you to promise me something. Our world is dying. We have too much deforestation, release too much carbon, and a lot of animals are becoming endangered or extinct. I don't want our world to become like this. Can you help us not to turn a beautiful planet into a desert? We will do our best to protect our planet.

Dear God,

I want to say thank you to you because you change my life and bring two friends to me.

I left my previous school, interviewed many schools, faced many failures, and finally successfully transferred online to Our Lady's College. During this period, I met a new friend online called Yoyo. The company also dismissed her then and could not find a new job. She always had insomnia and could not sleep at night.

In this dark period, we encourage each other, support each other, and share our lives. Ultimately, I found my desired school, and she also found her desired job. At the new school, I met a passionate girl, Cindy, who actively invited me to join her to complete the experiment. Gradually, we began to get familiar, and now we are good friends.

Thank you, God. You let me find my school and gave me two best friends.

Yours,

Susan Lin 3C (14)

Dear God,

How are you? In this letter, I would like to say thank you to you.

Thank you for your care in the past years. Thank you for letting me be born into such a happy family. A mother who cares and takes very good care of me. A father who understands me and supports me. A sister who always talks to me and gives happiness to me.

Thank you for letting me know that there's no shortcut in our life. Even though I am not a smart student. However, if I work hard, I can also get better exam grades. In the next few years, I will continue to try my best to finish every duty you gave me.

Thank you for telling me that. I still have supportive friends who care about and support me when I feel down. My family and friends' support has given me much courage to live.

Thank you for letting me have such a lovely drawing talent. So that I can express my feeling amazingly quietly through drawing and have many happy memory because of it. (thank you for letting me have a cute and lovely pet!)

Yours,

Sarah Lui 3C (16)
