Exploring the World Expanding Our Minds

Ireland Summer English Study Tour

Where we went

Going on the study tour was an eye-opening experience. We visited many gorgeous tourist spots, including Mercy College, Howth and numerous churches. We learned a lot from this course, especially about the vibrant culture of Ireland and also expanded my vocabulary. The study trip was very memorable. One of our favorite places in Ireland is Glendalough; the view there is very stunning. We also love the history of the place. This was indeed a fantastic experience that we'll never forget.

Vincy Yeung, 4C

What we learnt

This trip has been an absolutely incredible experience. We've learned to adapt to living with our roommates and effectively manage my time. During lessons, I remember feeling quite embarrassed during my first conversation with an international student. I struggled to find topics to discuss, but over the course of a few days, I gradually gained confidence and improved my communication skills. On this trip, I learned to be more independent and take care of myself. We can feel that we have grown a lot during this trip. We have become more polite, tidy, punctual, outgoing and grateful.

UNITED KINGDOM

SUMMER ENGLISH STUDY TOUR

Host Family

Since we stayed with our homestay families, we practised English every day. It was great to have this chance to communicate in English and learn more about their lives. I am very grateful for this opportunity because it has boosted my confidence in English and really broadened my horizons.

Shannon Yee, 6A

Where we went

We visited many historical, religious and iconic sites in English during this tour. I learned so much about ancient European culture in the Ashmolean Museum and our day in London was also very memorable—seeing Buckingham Palace, London Bridge and Big Ben in one go was amazing! We enjoyed traditional English milk tea and scones with a really beautiful view of the Radcliffe Camera.

Chloe Cheng, 6B

English Class

It was a great experience to meet students from different countries and learn about their cultures. The English lessons were fun because I got to work with other international students and make friends. I pushed myself to talk to these students and make new friends during these activities.

SINGAPORE

MULTI-CULTURAL AND LANGUAGE STUDY TOUR

Through visiting the Singapore City Gallery, the Marina Barrage and the Sustainable Singapore Gallery, we learnt about the country's sustainability efforts, such as how they cope with climate change, recycle water and manage waste. I was especially impressed by how the barrage prevents flooding, collects rainwater and supports water recycling. Visiting Gardens by the Bay was memorable. We admired the wonderful flora in the Flower Dome and took lots of pictures.

Sini Wong, 4D

TOKYO JAPAN

ECONOMICS AND BUSINESS STUDY TOUR

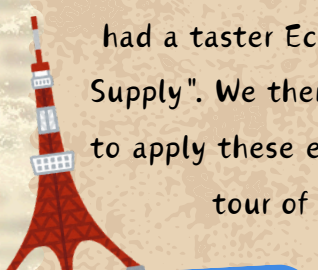

The Tokyo Study Tour was a remarkable experience that deepened our understanding of Japan's culture, economy, and society. We formed meaningful connections with local students and among ourselves, enhancing our appreciation for cultural exchanges. Rikkyo University is famous for its excellent academic resources and student support. We had a taster Economics lesson focused on "Demand and Supply". We then had group discussions and presentations to apply these economic concepts, followed by a campus tour of the beautiful Ikebukuro campus.

Athena Sze, 5B

KYUSHU JAPAN

GEOGRAPHY STUDY TOUR

The Japan Kyushu Geography Study Tour was truly a delightful experience for us. We visited many places, including the Aso Volcano Museum, Clean Park Rinkai and Harajiri Falls. We've learned how to protect the environment and its relation to climate change during the tour. Everything that is green is friendly. The animals and scenery make Kyushu so special. This is indeed a fantastic experience that we'll never forget.
